ORACLE

Oracle Health Device Connectivity Catalog

Oracle Health Device Validation

Connecting validated medical devices to your EHR is an important step toward medical device interoperability. Organizations that close this gap can help decrease manual data transcription errors and workflow inefficiencies. To help organizations address the gap between medical devices and EHRs, Oracle Health Device Connectivity Platform connects medical devices to any EHR.

To learn more about the Oracle Health Device Validation offering available through Oracle PartnerNetwork, visit Oracle Health Device Validation.

Workflow-driven architecture

Oracle Health Device Connectivity Platform is a workflow-driven, open architecture designed to adapt to industry standards as they are updated or new standards are created. The platform's driver framework and nomenclature service support connections to new devices and adherence to new standards. The platform is independent of EHRs, offering the ability to connect a validated medical device to your EHR, regardless of vendor.

Available solutions and workflows include:

- Oracle Health Oracle Health Bedside Medical Device Integration
- Oracle Health Oracle Health Event Management
- Oracle Health Infusion Suite
- Oracle Health Laboratory Medical Device Integration
- Oracle Health Mobile Vitals Collection
- FetaLink
- Capacity management
- Remote device connectivity
- Smart pump programming

Comprehensive device types

The Oracle Health Device Connectivity Platform is comprised of more than 1,000 devices to help revolutionize healthcare delivery.

- Anatomic pathology
- Anesthesia
- AP strainer
- Automation
- Balloon pump
- Bed
- Blood bank
- Breath analyzer
- Cerebral oximeter
- Chemistry/hematology
- Coagulation
- Communication

- Dialysis
- Digital pathology
- Extracorporeal membrane oxygenation
- Event Management
- Fetal monitor
- Flow meter
- Gateway
- Hematology
- Human leukocyte antigen detection
- Imaging
- Incubator/warmer

- Infusion pump
- Lab automation
- Medication dispensing
- Medication tracking
- Microbiology
- Monitor
- Nurse call
- Ophthalmology
- Oximeter
- Oxygen therapy
- Pacemaker
- Pathology

- Patient monitoring
- Perfusion
- Point of care
- Pulse oximeter
- Pupillometer
- Real-time location services
- Remote monitoring

- Respiratory
- Room controls
- Room signage
- Safety index
- Scale
- Spirometry system
- Supply cabinet

- Temperature management system
- Ultrasound
- Urinalysis
- Urine output
- Ventilator
